## To Whom It May Concern

### RE : Testimonial on iKamvelihle Development Trust

It is with great pleasure to acknowledge the contribution made by iKamvelihle Development Trust to our school communities ever since coming to the Cala Circuit over the past few years.

We have noted the following outcomes of their intervention through their programme:

- Learners got enlightened on how to make subject choices in line with their designated career fields.
- Assistance was given to learners on procedures of applications to tertiary institution.
- Face to face contact with various field specialists at Expo enabled question sessions to be held and financial aid measures to be explored.
- It has helped educators with sufficient information and experience to assist learners at school.
- Learners were appreciated for the good performance academically through awards and prizes.

We would appreciate if we could be assisted further with resources such as photocopiers, printers and computers / laptops in particular as the school mentioned above as the government grant is not enough for us to buy all these resources.

We honour and value greatly the assistance and commitment of the Trust to our schools and communities.

Gongxeka S.N ( Principal )
