Sir/ Madam

RECOMMENDATION: IKAMVELIHLE DEVELOPMENT TRUST

Our area is rural and is composed of underprivileged community.

The intervention by the above organisation to curb the scourge of under performance in Matric by our children has made a huge difference in our area. Seeing achievers who are a product of the Schools in this area has been quite a motivation to our children and has helped to change their mindset. They imagine that because their schools are rural they do not have chances of advancing in life as the learners in urban areas.

This organisation has motivated them through exposure to Faculties that they can follow at tertiary level. Ikamvelihle Trust brings all that to our rural area . Our children get an opportunity of actually meeting the lecturerers involved in the various streams at Tertiary Level and asking questions, getting answers to their satisfaction. This alone leaves a mark in the groping developing minds.

The awards given to best performers in the mid year examinations by the Trust are what everybody aspires to, thus creating that culture of competition among the learners. In the process they get an opportunity to study their books.

Given more time to extend their services in this area more children could benefit a lot from the Organisation and could assist in bringing about change to this place.

Yours sincerely

.....

C. E. N. MRUBATA (Community Member and parent)
